

YOUR COMMUNITY IS COUNTING ON YOU!

STARTS APRIL 1ST

OKLetsCount.org

The Town of Slaughterville is counting on you!

The 2020 Census will be available to complete on April 1st, and a community like ours are depending on you for an accurate count! Each undercounted person means an estimated \$1,675 less per year in lost funding, grants and support for our community – so accurate representation is important!

The 2020 Census takes **less than 15 minutes** to complete, and the impact it has on our community is far-reaching and long-lasting.

Community Services:

The Census determines funding for vital programs and services in our community like roads, hospitals, schools and emergency services.

Fair Representation:

The number of representatives your state and local government gets is determined by the Census.

Civic Duty:

The Founding Fathers included the Census in the Constitution. It has been a cornerstone of our democracy since 1790.

Redistricting:

School districts and voting districts will be updated based on the results of the 2020 Census.

My community can count on me to complete the 2020 Census. Can we count on you?
